About the Louisiana Health Care Quality Forum

The Louisiana Health Care Quality Forum is a private, not-for-profit organization, dedicated to advancing evidence-based, collaborative initiatives to improve the health of Louisiana residents. Its focus areas include quality measurement and analytics, clinical quality improvement, the patient-centered medical home/care coordination model, outreach/education and health information technology (IT). With regard to health IT, the Forum supports health care providers and critical access/rural hospitals as they adopt and meaningfully use electronic health records and serves as the State-Designated Entity to lead the planning and implementation of the state's health information exchange. For more information, visit www.lhccf.org.
